For almost half of my life I've been serving a sentence from the streets! And to cope with the pain of this power deceptions are deep! While in the war I'm serving in instead of tennis shoes or boots we now have crocks on our feet! In which, Mental stagnations are why a lot of individuals can't think to eat! Due to such Mental stagnations with some it's always tricks to get the treat! Because of such forces of control and oppositions a lot of individuals give up on getting back to the streets! Whereas, now in times where a lot of individuals fear possible death because there's no more chopping off your legs or feet, a lot have crocks on our feet! Whereas individuals feel so much like it's always deep! From all the crosses and testimonies you have to be cautious to prevent heat! Then for money some individuals resort to all types of deceit! Also some of us indicted in this never ending business of taking chances to survive, and everyone is under the same terminal threat of death. And to cope with the pain of this power deceptions are deep! From the streets! For almost half of my life I've been serving a sentence from the streets!
I've been serving most of my life on front line as an indicted and convicted felony!

I've been serving most of my life on front line as an indicted and convicted felony!

In which, it's a business consisting of rebelling and telling!

However, in this business it's a lot of crosses and telling even though some individuals are snitching and telling!

Whereas, for the rest of my life I'll have less to it and still succeed while some want me failing!

I'd be lying if I could think to write or say, "with some of these railroads there's no underground railroad tracks for the railing!"

So therefore, I'm not going to think to write or say, "with some of these railroads there's no underground railroad tracks for the railing!"

And some individuals only happiness is a teletype, a pardon, or whatever else they may receive through the mailing!

Also sometimes what is received through the mailing is our motivation to stand strong and keep rebelling!

And sometimes what is received through the mailing is motivation for the railing or whatever else they may receive through the mailing!

Some of these railroads there's no underground railroad tracks for the railing.

I didn't think I could think to write or say, "with some of these railroads there's no underground railroad tracks for the railing!"

I've been serving most of my life on front line as an indicted and convicted felon!

1. I'd be lying if I could think to write or say, "It's plenty of individuals that look just like me and they're serving a sentence of life, a sentence of life without the possibility of parole, and we all tormented by the unspelled word, "free!"

2. So I'm not going to think to write or say, "It's plenty of individuals that look just like me and they're serving a sentence of life, a sentence of life without the possibility of parole, and we all tormented by the unspelled word, "free!"

3. At the same time, I'm affected mentally, spiritually and physically by these same powers that be!

4. So therefore, I war everyday, and every night to stay in touch with my family and to remain mentally, spiritually, and physically free!

5. Then in this war to survive in all types of situations, physically, mentally, and emotionally, I remain in touch with my family and I remain mentally, spiritually, and physically free, by those same powers that be!

6. At the same time, I'm affected mentally, spiritually, and physically by these same powers that be!

7. Nevertheless, I'm my only stagnation to me!

8. I'm my only stagnation because regardless of any situation I'm accused of, I'm judged individually even on Independence Day, in my only stagnation because regardless of any situation I'm accused of, I'm judged individually!

9. From such dependence the judges' jurors and District attorneys have on me, it's plenty of July 4th serving sentences in the State and Federal Penitentiary.

10. The pain from such sentences has it where it's hard for me to focus on how Assata Shakur was able to get liberated from such dependence.
I'm black and July 4 but there's no Independence on July 4!

Because if we were independent then they'd let us go!

Yet instead, it's a lot of July 4 serving entrapped in war!

Entrapped in war serving sentences in a war of crimes!

In which, if old age isn't killing us, the police killing us, stds killing us, and sentences come with genocide and genocide is another reason we're dying!

Even while serving a sentence I don't have time to think or write or say, "some individuals are convicted because of lying!"

So therefore, I'm not going to think or write or say, "some individuals are convicted because of lying!"

And some individuals allow others' judgments to keep individuals in a criminal bind!

Harriet Tubman, Frederick Douglass, or Assata Shakur couldn't give these individuals strength or sight because fear has them blind.

Fear has them blind that to get free and stay free you must stay trying!

We must stay trying what must be tried!

Also some are blind to the fact that for survival its business we must hide because no matter how many times you come up or don't come up you're liable to get set off or denied.

There's still a lot of July 4 sentenced enslaved in a war of crimes!

STAY TIED!
1) It's 242 years later and Independence Day never applied to me but Independence Night applies to me!

2) When the Declaration of Independence was signed it only applied to those that were operating independently!

3) On 7/4 and 7/4 not meaning G.D my ancestors were still in slavery.

4) My ancestors were still in slavery on 7/4; so I'm still in slavery.

5) If you ever took time to listen to some of these individuals' sentences the unhearable words are spooky!

6) These unhearable spoken words are spooky because it's possible some will never make it back!

7) Some individuals will never make it back to being free.

8) Some individuals will never make it back to being free even though freedom is only a state of mind.

9) But some individuals let situations stagnate them from daily and nightly trying.

10) Nonetheless, I'm on front line daily and nightly trying!

11) Life comes with being part animalistic and I've graduated from my family's Black sheep to Black Lion.

There's no way out for some of us depending on our mind state!

In which, loneliness plus struggling fills some individuals with a heart, mind, body, and soul full of hate!

While some individuals try to direct at you their situation you didn't create!

Also where is the truth located at to consolidate our fate!

Some of us was left with no option but to do dirt to get from one point to another, and very civilians can understand or relate!

Every day and every night we on front line serving without time to debate!

Whereas, why must I take a 100 chances plus face hole time, because I owe the state, am owed 40 acres and a mule, and can't afford their communication rate!

Yet instead, for survival I must communicate!

The hands I've been dealt makes me think I'm my own soulmate!

It makes me think I'm my own soulmate because in my world genocide is what they enforce or regulate some of us prey for the right position and some of us prey for a release date!

Due to the fact, genocide is what they enforce or regulate, some of us prey for the right position and some of us prey for a release date!

However, until we can take advantage of that opportunity we keep going because pressure won't allow us to realize some of us prey for the right position and some of us prey for a release date!

Nonetheless, until we can take advantage of that pressure, some of us prey for the right position and some of us prey for a release date!

This is a very difficult time for me personally. My mind is racing with thoughts of the recent events and the impact it is having on me. I find myself struggling to come to terms with the reality of what has happened.

I remember the day clearly. It was a beautiful day, and I was looking forward to spending some time outdoors. As I was walking along the beach, I noticed a group of people standing by the water. It seemed like they were enjoying themselves, but something about their demeanor caught my attention. They appeared to be engaged in some sort of activity, but I couldn't quite make out what it was.

As I approached them, I realized that they were engaged in a conversation that was quite intense. I could hear raised voices and a lot of shouting. It was then that I saw it - a man had been severely beaten. He was lying on the ground, covered in blood, and it was clear that he was in a critical condition.

I immediately called for help and tried to provide some assistance, but it was clear that the situation was beyond my capabilities. The police arrived soon after and took over, but I couldn't shake the feeling of guilt that I carried with me.

Looking back on that day, I realize that it was a turning point for me. I had to confront the reality of the world and the dangers that exist within it. It was a wake-up call that I have not forgotten.

Sincerely,
