INTRODUCTION

You may have enjoyed the Spring and Summer Editions of Fondly Endangered? This Fall Edition has taken political twists aimed at restoring the consciousness level of the sacred feminine and complimentary gentlemen, not only to prevent extinction, not only to preserve the family balance mold to survive the wilderness of civilization ("in these times"), but engender a more prolific procreation of a titrated species to effect the body politic. Titrate, meaning those who have developed and/or willing to develop the capacity to doctor, lawyer, engineer a peoples government of a society, a nation, the world, until it reaches an approximate balance of justice. As we are witnessing 28 state prisons in Pennsylvania now under federal investigation by United States Department of Justice, U.S. Attorney General and Disability Rights Network, who've discovered a systemic pattern of abuse on prisoners by prison guards, prison crats and its psychiatric, psychological and medical contractors sparked by HRC (Human Rights Coalition), De carcerate PA and the will of peoples governments
the Penn State Sex Scandal in Centre County, Bellefonte, Pa, the corruption from the highest echelons of corporate and bureaucratic government, and the secret concealed rapes of women in navy, airforce, marine and military—has created indespensible demand to reconcile a proven rogue infrastructure to the status quo, with qualified professionals not influenced by threats, coercion, extortion, loss of economic stability, loss of social status or blackmail. All of the red flags shown to the public and hidden are the tell tale signs and classic catalysis demand for a peoples budget. It is only with a PEOPLES BUDGET that schools will preclude from closing, and reopen those that have; so that tenures of teachers, principals, counselors, nurses, doctors and the host of social services may prevent students from a life of crime. A PEOPLES BUDGET, as opposed to a prison budget which has failed, will restore integrity, respect and dignity, not only in the children, students and people, but also the professional ethic and professional responsibility.
absent in today’s infrastructure. Every juvenile sentenced to death or life without parole, any woman sentenced to death or a life of servitude—under the pretext of employment at the expense of tax payers; any time guards, doctors, prison crats, corporate crats, psycho-therapists and police, prosecutors, can rape, extort, rob, embezzle, and write it off as false accusations or hyper-active allegations; then, act like nothing ever happened—continue to collect pay and unlawful debt, while the victims suffer in silence without closure; any time judges, prosecutors, politicians and legislators are paid to turn their heads when crime against the people is so prevalent national state of emergency is silenced, any time a silent titan corporation pushes buttons around the world to determine who gets fed and who does not, who is elected to office and who is assassinated, what water and food is polluted and not, any time traffic in human flesh is not only missing persons on white slavery but traced to world banking and construction of prisons—it is the conduct of global enter prise through a pattern of racketeering

CREATING OUR OWN PEOPLES' BUDGET...
FOR HOME-GROWN LEGAL JUSTICE...

I'm willing to invest 18 percent of all revenue from 5 books I've written once a commercial publisher is found racial politicians will start to listen to a peoples' union and as share croppers organizing our natural abilities in place of individual food shoppers grow our own agriculture from our own think tanks & food tanks kills the appetites of corporate vultures creating a peoples' bank develop fund raising campaigns networking partnerships state-nationwide global citizens remain in chains corporate-prison construction has downsized not only teachers, students and classroom funding they have detrimentally influenced our lives marketed criminal image profiles for hunting entrapping trafficking human flesh under the pretext
of law and order, law enforcement, homeland security, custody and control, criminal justice, hidden consortia, with Pentagon commands surely grounds prisons rogue construction substance since WW2 and third world threat, corporate capitalist demands project a deficit to get a moratorium to prevent prison construction and mass incarceration, to demand a peoples budget commission, we need a global mass demonstration constriction control of a peoples' budget variety as a matter of a united obstacle course in a capitalist society will not come without legal force there are legal guidelines that are customary vital to a peoples lifeline r.i.c.o. and int'l law creates budgetary demands on corp. execs and government to protect a peoples covenant to prevail a peoples advantage we have to talk legal business language read what has been published for creation: partisan academy/society and global citizens versus global corporate colonization we cannot afford to be local-internationally vocal! creating our own peoples budget for home grown legal justice.
IN PURSUIT OF A PEOPLES BUDGET ACTION

We hear side talks about defective drugs, injuring people for class tort action, attorneys talk, but never about corporate thugs, for a peoples' budget action. Titan corporations sue corporations daily not for a peoples' budget nor fortification yet in their corp. charters a written peoples' interest prevailing mail fraud, document identification falsification when majority of citizens are affected by budget cuts in education children neglected mass incarceration communities unprotected, contention of prisons and a caste system escalates billions embezzled, communities emasculated at the expense of tax payers without their review of tax portfolios and all the players and their purview committing exploitation and extortion a.l.e.c. (american legislative exchange commission) heritage and reason foundations lobby crime legislation missions for extended incarcerations
wrapping chains around folks brains while prison crats and their contractors continue to collect pay and unlawful debt as proctors and benefactors aftermath engineering psychopathic racketeering particularly when judiciary executive and legislative branches of government volunteering to turn their heads to proven penitentiary systemic torture of prisoners little girls and boys dilemmas of crime graduation without basic education teachers can no longer boycott disenfranchised by execs prison crats and political robots 900 prisoner abuse log entry by legal criminals full proof tax payers swindled falsification of multiple identification documents we walk and talk about how monopoly education cuts and the prison construct is affecting our economy but we have not yet discussed a peoples budget counteraction contraction for a mass class r.i.c.o. (racketeer influence and corrupt organizations) action?

PROPOSAL FOR INVESTIGATIVE HOUSING COMMITTEE

Autumn is an opportune time to inspect confiscated buildings listed at city hall, federal courthouse, district attorney's office and attorney general housing laws for buildings, homes and mansion estates possessed by state and federal governments due to irresponsible or illegitimate ownership some of which are given away "free" to those willing to fix them up or agree to do necessary maintenance with a people's purpose while others may be purchased for one dollar thus repairs for these buildings vary from light shortage, heating malfunctions, roof leak — utility irregularity — found in every city of Pennsylvania and across the states of America. Decarcerate is going to need meeting places, storage buildings, store space for possible commercialization of produce, campaign promotion, compensatory places for alternative education, group homes, healing residences or halfway houses for decarcerate citizens. Once we shut these prison coffins down well bring back our stolen economy tapping into a people's budget also means demanding grants, scholarships, stipends warranting grant of proposal for investigative housing committee to repossess homes and estates from cities.

Michael Forrest

P.O. Box 945  
Marienville, PA 16239  

Dear Mr. Forrest:

Thank you for contacting the ACLU with your complaint regarding prison abuse. I apologize for the unavoidable delay in attending to your inquiry. Unfortunately, after reviewing the matter, we are obliged to conclude that we cannot provide you with ACLU representation or other legal assistance, including helping you file documents with the court.

The ACLU is a privately funded organization relying heavily on the services of volunteer attorneys. We seek to preserve and extend certain constitutional principles, most of which are found in the Bill of Rights. We are not a general provider of legal services.

We generally take only those cases in which the facts are not in substantial dispute and, more importantly, in which there is a significant civil liberties issue. We give priority to cases where our participation can benefit a large class of people or lead to a positive change in the law. Scarce resources are an unfortunate constraint, preventing us from taking many meritorious civil liberties cases. As a result, we must be very selective in choosing which issues to address.

Our decision in your case was based on the foregoing factors and not on a legal judgment on the merits of your claim. It should not discourage you from pursuing the matter if you so desire, through other channels, such as a private attorney or other legal services provider. Enclosed please find the original documents you included with your letters to us. We have made copies for our file.

Normally, we recommend that you file a grievance with the warden, using whatever internal grievance process exists. This is important for three reasons. First, it puts the administration on notice of your
problem and gives them an opportunity to correct it. Second, this gives you evidence that the prison knows about your problem and what they have done, or not done, to help you. Finally, under both federal and state law, you cannot file a lawsuit or get relief from a court until and unless you have first “exhausted” your administrative grievances.

If, however, your institution does not have an internal grievance procedure, or if the process is totally ineffective and you can document that you have attempted to use it, you can file a pro se lawsuit directly with the courts.

You may find it helpful to contact the Pennsylvania Prison Society with your complaint. They are a social justice organization that advocates on behalf of prisoners, formerly incarcerated individuals, and their families. They can be reached at:

**Pennsylvania Prison Society**

Similarly, you may want to try contacting the Pennsylvania Institutional Law Project. They provide free legal assistance in civil matters to low-income incarcerated or institutionalized people whose constitutional rights have been violated within the institution. They can be reached at:

Michael Forrest
Fondly Endangered

Around 1995 many PA mental asylums, mental health care homes, dumps their patients into the prison system where it has been alleged that most of the recorded mentally disabled were not properly cared for in the prison system. Now, a low suit is pending against John Wetzel by Disability Rights Network of PA, for disability neglect, etc., when the suit should be against their former care providers and the Commonwealth. Interestingly, it is the Commonwealth advocating the suit - not seeking monetary damages for those allegedly injured! However, this is an opportune time to put a staff together (qualified) and add another salary to your paycheck!!

Dear Mr. Forrest:

Thank you for your letter. The Special Litigation Section relies on information from community members to identify civil rights violations. Each week, we receive hundreds of reports of potential violations. We collect and analyze this information to help us select cases, and we may also use this information as evidence in an existing case. We will review your letter to decide whether it is necessary to contact you for additional information. We do not have the resources to follow-up on every letter.

The Special Litigation Section is one of several Sections in the Civil Rights Division. We work to protect civil rights in four areas: 1) the rights of people in state or local institutions, including: jails, prisons, juvenile detention facilities, and health care facilities for persons with disabilities (including whether persons in health care facilities should be getting services in the community instead); 2) the rights of people who interact with state or local police or sheriffs' departments; 3) the rights of people to have safe access to reproductive health care clinics or religious institutions; and 4) the rights of people to practice their religion in state and local institutions. We are not authorized to address issues with federal facilities or federal officials.

If your concern is not within this Section's area of work, you may wish to consult the Civil Rights Division web page to find the correct section: www.justice.gov/crt.

The Special Litigation Section only handles cases that arise from widespread problems that affect groups of people. We do not assist with individual problems. We cannot help you recover damages or any personal relief. We cannot assist in criminal cases, including wrongful convictions, appeals or sentencing.
If you have an individual problem or seek compensation or some other form of personal relief, you may wish to consult a private attorney or a non-profit or legal aid organization for assistance. There are only two areas in which we can assist an individual or address a single incident: 1) we may be able to assist you if you are being prevented from practicing your religion in a prison, jail, mental hospital or other facility operated by or for a state or local government; 2) we may be able to assist you if you have experienced force or the threat of force when accessing a reproductive health care facility or religious institution.

For more information about the Special Litigation Section or the work we do, please visit our web page: www.justice.gov/crt/about/spl/.

Sincerely,

/s/

LET S NOT FORGET THE PURPOSE THE PRINCIPLE AND "THE PEOPLES" HUMAN RIGHTS INVESTIGATION OF PRISON CRIMINAL CORPORATIONS

900 and counting complaint petitions of prisoner p.a. abuse log entry was pioneered by human rights coalition created the catalysis for investigation of penitentiaries how does united states department of justice u.s. attorney general and disability rights network conduct impromptu probe lobbies limiting it to mentally disabled prisoners? excluding phone rip offs, murders by prison guards, policy? cover ups by prison staff? psychiatrist and psychologist robots? and prison health services inc. wrath? reluctant to prosecute proven criminals validated? with a license for passing a civil service test? contracted medical staff- clearly calculated? creating new jobs for coroners and shrinks? the current probe by these watch dogs financed by tax payers link to private corporate funding promoted by commonwealths secret defacto bill who facilitated criminal prosecutions and hunting for the so-called mentally ill u.s. prosecutors and district attorneys

civil, criminal and human rights violations escalate behind an iron curtain, annihilations, where investigators and prosecutors conduct compete prisoner and peoples claims the way Titan corporations compete products officials and contractors refusing to report and prosecute criminal evidence and facts is violation of the patriot act it is the deathening silence unquestioned and prosecutors never mention how these atrocities violate international and customary laws of the Geneva convention while acquisitions and mergers of a.c.l.u., u.s. attorney and d.r. network conceal video taped abuse, torture and murders lets not forget the purpose, the principle, the peoples human rights investigation of prison criminal corporations lets not forget how Tom Catlinone, Jeffrey beard - tried to forfeit 900 pa prisoner abuse log entry with the 2009 closed house judiciary hearings cont
the head of PA D.O.C., the head of judiciary committee evidently did this to cover up and conceal engineering of prisoner abuse, murders, tortures in secrecy, perpetrators promoted with more frequency courts, prosecutors protecting corp-prison status quo, ignoring taxpayers and prisoners rights scenarios. Deincarcerate PA has proven prison construction defeated its purpose using a prison budget and tax payers funds to union stock of the people for purchase. There is no question we must continue to meet and the stakes have gotten far beyond the minimal walk on wall street to serve the maximum principle. Let's not forget the peoples human rights investigation of prison criminal corporations.
EPilogue

My greatest inspiration, my baby sister Lisa A. Forrest, mother, lady, princess to a Queen, Woman and independent professional, is a classic example of the Sacred Feminine. The women of Decarcerate PA, Human Rights Coalition and Walk on Wall Street are very powerful stimulants in the upscale hot pursuit of regaining equal power. To effect the body politic and truly achieve the self same sovereignty and balance with gentlemen it is amazing how women have become more attractive in their political thrust, working with prisoners, executives, professors, students, advocacy groups and men who appreciate, respect and protect the equa poise of the feminine force. It is with a concerted effort and force that is expected to instill in the children that they are our bank accounts for today and to morrow. Our peoples budget balance weighs for the challenge of the leverage we get from our hearts - balanced to the feather... meditating peace, dignity, freedom - lessoned from the past.
